

RECOMANDARE

Our company, between 2009 - 2011, received the execution and installation of the following products:

- execution roofing systems consist of high-profile board, thermal insulation, waterproofing (PVC and bitumen membranes)
- Supply and installation of smoke hatches
- Assembling Sandwich pannels.

Our staff continue to collaborate with S.C. Master Build S.R.L Bucuresti to execute closing systems to industrial and residential buildings

We appreciate that the contractor is a partner with a high level of professionalism; making quality work respecting deadlines and quality parameters

The services provided have expanded during the warranty period, contractor showing his willingness to perform maintenance even after the warranty expires on a contract basis.
