

RECOMMENDATION LETTER

In the period 2010-2011, our company had worked with the "Master build" company at the project "New US Embassy Compound Project -Bucharest, Romania-Roofing works" performing the following services:

- Delivery and application of waterproofing membranes for roof terraces.
- Supply and installation of insulation systems.
- Supply and installation of pavers.
- Production and assembly of metal profiles..

Our staff continued also to collaborate with S.C. Master Build S.R.L Bucharest for the completion of various closing matters related to our Project within the Warranty Period.

We appreciate that S.C. Master Build S.R.L is a partner with a high level of professionalism; making quality work respecting deadlines and quality parameters.
